

Edbro
SETTING THE INDUSTRY STANDARD

The Edbro range of telescopic arm
skiploaders is even more universal
for today's demanding waste operator

B L B T A S E R I E S

Benefits

Ultimate long-term profitability throughout equipment lifetime with a fast operating and lightweight product

Reduced downtime for servicing with the Edbro long-standing "fit & forget" reputation

Optimum safety for equipment operator with a range of protection features designed by the Edbro team of expert engineers

Minimal servicing worries with a strong and reliable product

Features

Independent arm operation for increased flexibility, available with optional mini-crossbar for further versatility

Compact, robust rear end design with protection for rear light clusters to increase durability in the most arduous waste handling operations

90° rear of cab guard fitted as standard for ultimate operator protection and maximum platform bed length

Side protection guards and tip hooks as standard (optional tip chains available) to optimise safety at all times

Independent jack legs for increased stability on uneven ground (roller option also available)

Side mounted rams complete with protective ram guards giving extra wide bed clearance for oversized containers

Adjustable skip stops for increased versatility in container capacity
