

ROLATIP

Benefits

Maximum payload and increased power-to-weight ratio is achieved using the lightweight, powerful Rolatip system

30% faster site turnaround compared to competitor products for more productivity in operation

Durability you can trust with the "fit & forget" Edbro reputation and robust design able to withstand the toughest working conditions

Simple controls with universal and versatile design features

Features

Improved lifting efficiency with Edbro's lightweight patented roller lift mechanism

Unique, completely secure hook profile for reduced risk of damage and downtime, universal application with all container types

Large rear rollers for optimised bin handling and reduced stress on critical components

Robust rear end design for extra strength and durability in operation

Small side mounted oil tank provides better accessibility to chassis gearbox or behind cab area

Model	RLT26	RLT32
Maximum GVW	26 tonne	32 tonne
Maximum lift capacity	16 tonne	23 tonne
Equipment weight	2,850 kg	3,000 kg
Maximum body length	6.10 m	6.80 m
Tipping angle	50°	50°
