vds

**Pulverise your  
excavation costs:  
With the Vertical Digging  
System (VDS).**

**25%  
SAVINGS**

*on time and materials  
when excavating and  
filling-in*

- New: 7 models from 1.7 to 5 t operating weight.
- Higher productivity, improved efficiency with VDS.
- Shorter digging times thanks to vertical digging.

With VDS you'll enjoy savings of up to 25%: Thanks to the continuously-variable tilting of the superstructure, gradients of up to 27% can be compensated by the use of a button only. A 20-year pedigree and still as contemporary as ever.
